

Flame Failure Safety System

Thanks to Baumatic, you can enjoy complete peace of mind whilst you cook. Our flame failure safety system automatically cuts the gas supply should the flame be extinguished because of a strong current of air or liquid spillage. In effect, because we have devoted our time to ensuring your safety, you can devote your time to simply enjoying yourself in the kitchen.

High Powered Wok Burner

All Baumatic gas cooktops feature the new 16 MJ high powered triple flame wok burner. For total control, this new wok burner is dual controlled to enable you to operate the powerful flame right down to the finest simmer for delicate cooking.

Cast-iron Pan Supports

The innovative design of these strong pan supports was inspired by a special study on the efficiency of professional kitchen appliances. Researchers found that heat can be more evenly distributed if you provide greater stability to the base of a saucepan.

Under-knob Automatic Ignition

In order to make the use of our products even easier, Baumatic have made sure that you only have to press down and turn the control knob for the hob to ignite. This simple way of igniting means that you do not have to fiddle with any extra buttons or waste time looking for matches.

Electric Ceramic Cooktops

Baumatic ceramic cooktops are built with advanced technology that delivers fast cooking results for the electric market. Gone are the days when electric cooktop style cooking is slow and unresponsive. From a powerful 2700 watts through to a finer simmering power, Baumatic's ceramic electric cooktops heat up in a matter of seconds.

Child Safety

Simply by gently pushing the lock keys on our ceramic cooktops, you can prevent the controls from being inadvertently adjusted by any member of the family. In order to make our appliances even safer, our residual heat indicators remain on until the temperature on the cooking zone has dropped below 50°C.

Touch-sensitive Control Panel

You will notice the design and layout of the controls makes operating our ceramic cooktops easy. Whilst the touch control system is simple and effective to use, it also offers the convenience of keeping the surface clean because there are no control knobs.

Induction - an Innovative Way to Cook

Using an induction cooktop is a truly unique and revolutionary way to cook. Induction cooking is not like traditional cooking methods that rely on the surface of the hob that gets heated by either gas or electric burners, which then heats the cooking utensil. Under the surface of the induction hob are generators. These generators send high frequency currents through the glass surface into the cooking utensil when placed onto the hob. These magnetic currents then heat up the pan directly inside, not the surface of the hob.

Induction cooktops thus are the most safest cooking appliance on the market today. In fact you could cook a stir fry and place a tea towel under the wok and it would not catch on fire. Not only is induction the safest cooking method, it is the most energy efficient. Finally the performance of induction is unmatched. It will cook faster than any other heat source available and has impeccable control. From a boil to the finest simmer in literally seconds. Induction gives you total control at your fingertips.

Booster Function

Induction means that you do not have to pre-heat the zones. This is because it is the pan itself which heats and not the zone that transmits heat. Thanks to the booster function which steadily increases performance, the temperature rises even more quickly. You can get a pot of boiling water in no time!

BACG6030-P

60 cm Four Burner Gas Cooktop

New unique design
Stainless steel
Triple flame wok burner
Dual controlled wok burner for fine simmer or maximum power
Flame failure safety device
Cast iron trivets with rubber feet
Automatic under knob electronic ignition
High quality alloy burner system
Convenient front controls
One piece easy wipe surface with spill catchment area

BAC G7531-P

70 cm Five Burner Gas Cooktop

New unique design
Stainless steel
Triple wok burner
Dual controlled wok burner for fine simmer or maximum power
Flame failure safety device
Cast iron trivets with rubber feet
Automatic under knob electronic ignition
High quality alloy burner system
Convenient front controls
One piece easy wipe surface with spill catchment area

BACG7532-P

75 cm Flushline Five Burner Gas Cooktop

Flush line design
Stainless steel
Triple flame wok burner
Dual controlled wok burner for fine simmer or maximum power
Flame failure safety device
Cast iron trivets with rubber feet
Automatic under knob electronic ignition
High quality alloy burner system
Convenient front controls
One piece easy wipe surface with spill catchment area

BACG9033-P

90 cm Five Burner Gas Cooktop

New unique design
Stainless steel
Triple wok burner
Dual controlled wok burner for fine simmer or maximum power
Flame failure safety device
Cast iron trivets with rubber feet
Automatic under knob electronic ignition
High quality alloy burner system
Convenient front controls
One piece easy wipe surface with spill catchment area

BACG3034-P

30 cm Two Burner Gas Cooktop

New unique design
Stainless steel
Flame failure safety device
Cast iron trivets with rubber feet
Automatic under knob electronic ignition
High quality alloy burner system
Convenient front controls
One piece easy wipe surface with spill catchment area

BACG3035-P

30 cm Wok Burner Cooktop

New unique design
Stainless steel
Triple flame wok burner
Dual controlled wok burner for fine simmer or max power
Flame failure safety device
Cast iron trivets with rubber feet
Automatic under knob electronic ignition
High quality alloy burner system
Convenient front controls
One piece easy wipe surface with spill catchment area

BACE3036-P

30 cm Two Hyperspeed Zone Ceramic Hob

2 hyper speed zones
Stainless steel frame
Tough ceran glass surface
Spill catchment area
Residual heat indicators
Convenient front controls

BAM251 TK

25 Litre Microwave Oven with Grill

Stainless steel exterior and interior
Microwave output: 800 W
5 power levels
Rotating base and plate action
Push button control operation
Defrosting by weight mode option
Grill only operation available
Grill & Microwave Combination available
Child safety lock
LED display with programmable 24 hr clock
Delay start option
Stainless steel trim kit included

BA M253T K

25 Litre Built in Convection Microwave Oven with Grill

Microwave power: 900W
Grill power: 1100W
Stainless steel interior
LED display & clock fully programmable
99min 99sec timer
Electronic push button controls
Push button/knob control operation
Quick start function
10 functions, 10 power levels
Oven capacity: 25 litres
Stainless steel trimkit included

BA CE 6004

60 cm Ceramic Electric Cooktop

- 4 electric cooking zones
- Touch controls with 9 power levels
- Illuminated digital display
- Child safety lock feature
- Auto switch off safety feature
- Residual heat indicators
- Responsive radiant electronic ceran elements
- Toughened ceramic glass surface
- Frameless design

BA CE 7006

70 cm Electric Induction Cooktop

- 4 induction cooking zones with booster
- 4 independent induction generators
- Toughened ceramic glass surface
- Frameless design for ease of cleaning
- Child safety lock feature
- Residual heat indicators
- Front touch control operation with 9 power levels
- Electronic 99 minute timer
- Auto switch off safety feature
- Autopan detection

BA CE 7004

70 cm Ceramic Electric Cooktop

- 4 electric cooking zones
- Touch controls with 9 power levels
- Illuminated digital display
- Child safety lock feature
- Auto switch off safety feature
- Residual heat indicators
- Responsive radiant electronic ceran elements
- Toughened ceramic glass surface
- Frameless design

BA CE 6006

60 cm Electric Induction Cooktop

- 4 induction cooking zones with booster
- 4 independent induction generators
- Toughened ceramic glass surface
- Frameless design for ease of cleaning
- Child safety lock feature
- Residual heat indicators
- Front touch control operation with 9 power levels
- Electronic 99 minute timer
- Auto switch off safety feature
- Auto pan detection

BACE9004

90 cm Ceramic Electric Cooktop

- 4 electric cooking zones
- 2 dual zones
- Responsive radiant elements
- Ceramic glass surface
- Frameless design for ease of cleaning
- Electronic 99 minute timer
- Residual heat indicators
- 9 power levels
- Illuminated digital display
- Child safety lock feature
- Auto switch off safety feature
